

### ACROSS

- 8 An area that uses the same clock time
- 13 A severe shortage of food that results in widespread hunger
- 14 A dry area on the downwind side of the mountain
- 16 The number of people or animals the environment of an area can support
- 17 To hire someone outside a company to do work that was once done inside the company
- 18 The process of adjusting to lower oxygen levels at higher elevation
- 19 Land suitable for growing crops
- 21 The weight of the atmosphere pressing down on any point of the surface of the Earth
- 22 The population of a country divided by its total land area
- 23 The flow of goods and services across national borders, with little or no government control

### DOWN

- 1 A condition in which countries have strong economic ties and depend on each other for resources, technology, trade, and investment
- 2 A large company that has operations in more than one country
- 3 Where people live in a country, whether crowded together in cities or spread out across the countryside
- 4 A seasonal wind; summer winds usually bring rain to the region
- 5 The length of time it takes for a population to double
- 6 The annual rate of population growth
- 7 The use of technology to move, record, and process information
- 9 A condition in which the population of a country does not grow but remain stable
- 10 The development of a global, or worldwide, society in which people, money, information, and goods flow fairly across national borders
- 11 The ability of one country to produce a good or provide a service at a lower cost or more effectively than another country
- 12 A place of great natural or cultural value that has been placed on UNESCO's World Heritage List
- 15 The precipitation that occurs when moist air rises up the side of a mountain
- 20 The harmful effects of cold, wind, or other extreme weather conditions

# Unit 7: Monsoon Asia
